FROM THE PRODUCT LISTING

Mounts semi-flush to a standard ceiling junction box — professional installation recommended. Wipe the glass shades with a soft, dry cloth. Bulbs not included — warm-white E12 candelabra LEDs suit the mid-century look.

CARE & MAINTENANCE

Switch off and let the fixture cool. Dust with a soft, dry cloth; no solvents or abrasive cleaners.

WARRANTY & RETURNS

Covered by the Tiixo limited warranty. Returns accepted within 30 days of delivery, unused and in original packaging, with no restocking fee. If it arrives damaged, send a photo within 7 days and we ship a replacement first.

For your electrician

ELECTRICAL

BULB BASE E12 · max 60W — bulbs not included

WIRING (GENERAL GUIDANCE)

FIXTURE WIRE	CONNECT TO
● Black (or ribbed)	Line / hot
○ White (or smooth)	Neutral
● Green / bare copper	Ground

1. Turn power off at the breaker and confirm it is off with a non-contact tester.
2. Fix the mounting bracket to a ceiling junction box rated for the fixture's weight, using the hardware supplied.
3. Make the connections above with approved connectors and fold the wires neatly into the box.
4. Fit the canopy, install bulbs within the rated wattage, restore power and test.

BEFORE YOU INSTALL

- ☐ A ceiling junction box rated for the fixture's weight
- ☐ Supply voltage confirmed for your region
- ☐ Ceiling height measured, so the fixture clears walkways
- ☐ A dimmer, if used, rated for the light source
- ☐ A second person or a stable ladder for lifting the fixture
- ☐ Power off at the breaker before any work begins

PLACEMENT GUIDELINES

ROOM SIZE
Add the room's length and width in feet; that number in inches is a good fixture diameter.

CLEARANCE
Keep at least 84 in (7 ft / 213 cm) from the floor to the bottom of the fixture in walkways.

OVER A TABLE
Choose a fixture about one-half to two-thirds of the table width; a flush or semi-flush mount suits ceilings under 8–9 ft.

Safety. Turn off power at the breaker before installing. Installation must follow local electrical codes (the NEC in the US). We recommend a licensed electrician for every hardwired fixture. Never exceed the rated wattage.
